

# TURNING YOUR WOULD-BE WASTE INTO A VALUABLE COMMODITY

**Spectrum**<sub>WATER TECHNOLOGY</sub>**B.R.D.**  
BENEFICIAL REUSE DIVISION

***Do you have secondary chemicals or other products that are unusable to your organization? The experts with Spectrum Water Technology's Beneficial Reuse Division can help you turn your waste into a resource, finding a cost-effective solution to your problem while utilizing the utmost discretion to ensure your privacy.***

*Our Beneficial Reuse team of experts are available to consult on, manage, and execute a variety of projects, backed by over 20 years of technical and regulatory experience. Since our inception, we have successfully repurposed millions of pounds of secondary chemicals that would have ended up in landfills, polluting the environment.*

*At Spectrum, we work with clients worldwide, including the U.S., India, Germany, Italy, Brazil, Mexico, and Spain, to find end-use customers for surplus products and chemical byproducts – helping save our clients both time and money while also protecting the environment.*

## INDUSTRIAL

*Qualify your waste streams to be reused in your processes or sent to another facility to be used as a substitute material*

## TRANSPORTATION

*Handle stranded or canceled loads to help you limit loss*

## STORAGE TERMINALS

*Find reuse solutions for contaminated products and tank bottoms*

***Our goal is to find reuse solutions for your waste streams to protect the environment, cut down on your disposal fees, and reduce liability risks.***

*Our Beneficial Reuse Division offers a turnkey solution, handling everything from sampling and analysis to transportation and product management. Our process begins by reviewing your waste streams, inventory of products, and current reuse strategy. Our experts then qualify the waste and determine if it can be reused, even if they are off-spec, contaminated, or used. Our goal is to help increase the value of your current reuse strategy or create value from waste streams you currently dispose of.*

# SPECTRUM'S BENEFICIAL REUSE DIVISION'S FULL LINE OF SERVICES

WASTE STREAM QUALIFICATION | SAMPLING | SAMPLE ANALYSIS | PRODUCT TRANSPORTATION  
DOT SHIPPING DOCUMENTS | GHS LABELS | TANK CLEANING | TEMPORARY MATERIAL STORAGE
