

SPECTRUM VACUUM BOX

Spectrum
WATER TECHNOLOGY

WHY CHOOSE THE 25 YD. VACUUM TURBO PHASE SEPARATOR FOR CHEMICAL TANK CLEANOUTS

- Completely enclosed to contain volatiles and odors
- Minimizes handling of solids
- 25 cu. yd. capacity
- 25,000-gallon daily processing capability
- Cleans tanks faster than any competitor because of Spectrum's innovative design
- 20-25% solids removed (on average)
- Emissions are scrubbed and can be disposed of separately
- Scrubbing mediums are customizable to your VOCs
- Pays for itself in 9 months (9-month ROI)
- Financing available

The experts at Spectrum innovated the design of our Turbo Phase Separator to create the Vacuum Turbo Phase Separator. This box was designed specifically for chemical tank cleanouts when we realized the traditional methods were no longer cutting it. The Vacuum Turbo Phase Separator has all the same benefits as our Turbo Phase Separators, **plus the ability for efficient, cost-effective tank cleanings.**

Benefits of the Vacuum Turbo Phase Separator:

- Requires a 70-95% lower upfront investment than other tank cleaning equipment
- The Vacuum Turbo Phase Separator fits easily into the daily routine of your facility
- Operating costs are typically up to 95% less, and rarely require maintenance
- The Vacuum Turbo Phase Separator requires only a flat patch of ground or concrete and a drain
- The Vacuum Turbo Phase Separator uses roughly \$92 a year on electricity

(Based on 0-1.5% Solids)
